ORIGIN ARM.

HIGH STANDARD QUALITY

SET OR PER CORNER

Developed and tested through D1 Grand Prix and other circuit racing platforms. In 2016 our line-up has doubled and number of users has massively increased.

- ORIGIN ARM was developed for the circuit where performance is important, it is not intended for public road use.
- Products printed in magazines and online may look slightly different from the actual items due to lighting, etc.
- The emphasis of these products is on adding performance to standard cars. As a result ride comfort may be impaired. Driving conditions may also be limited. Please understand the characteristics of the product before installing it.
- This product may result in vehicle manufacturer warranties being voided. Please consult your original seller if concerned.
- Please contact specialty shops to ensure a professional and safe installation.
- Made for use with the designated models only. Never install on another vehicle that it is not intended for.
- Please ensure to read the safety information supplied with the product before installation.
